Matthew 28 Ministries, Inc., founded in June 2006, is a nonprofit organization devoted to ministries in Kenya. Our vision is to see every woman and man in Africa trained as a disciple-maker for Christ.

Our mission is to develop and train Christian leaders in Africa through theological and biblical education and leadership skills, to empower women with Income Generating Activities, and to teach Maasai women how to read and write. Through these ministry missions, we aim to raise up global leaders, transform communities, and spread the gospel to advance the Kingdom of God.

Our goal is to better equip women leadership with theological education and with the practical training that will enable them to be more effective in ministry. Our aim is also to train men so that they may learn to serve God side by side with women with fairness in treatment and equality in opportunities for ministry services. This philosophy is based on the Scripture that God created man and woman in His image and gave them a joint command to have dominion over His creation. In addition, Scripture shows that Jesus Christ treated women fairly and with dignity; He taught them, let them follow Him and serve Him, and gave them opportunities to serve others. Thus, we seek to train not only women but also men in their understanding so they can fully partner with women to fulfill Christ's Great Commission.

The Kenya Extended Producer Responsibility Organization (KEPRO) is a Producer Responsibility Organization (PRO) established to support producers in fulfilling their Extended Producer Responsibility (EPR) obligations while advancing sustainable waste management and circular economy solutions in Kenya, in accordance with the Sustainable Waste Management Act, No. 31 of 2022, which was signed into law on 7 July 2022.

KEPRO works collaboratively with government, industry, recyclers, waste value chain actors, and communities to promote responsible packaging waste management, increase recycling and recovery rates, strengthen environmental awareness, and drive innovation across the circular economy ecosystem. Through compliance support, stakeholder engagement, capacity building, and investments in waste recovery systems, KEPRO has grown to become Kenya's largest Extended Producer Responsibility (EPR) scheme, representing over 1,400 producers across the country and helping build a cleaner, more resource-efficient and sustainable future for Kenya.
